

Sports Premium Review 2014/2015

Withington Primary School

Funding Available Annually: £8,230.

The Department for Education tells us that:

“The government is providing additional funding of £150million per annum for academic year 2013 to 2014 and 2014 to 2015 to improve provision of physical education (PE) and sport in primary schools”.

This funding is ring-fenced and therefore can only be spent on provision of PE and sport in schools. Withington Primary School has committed to improving the provision of PE and sport, working towards achieving four key priorities.

1. To improve the quality of teaching and diversity of the curriculum in order for all pupils to make regular and sustained progress.
2. To increase opportunities for all pupils to participate in a range of extra-curricular and competitive sporting opportunities.
3. To use physical activity to improve pupils health, wellbeing and educational outcomes.
4. To use PE, school sport and physical activity to impact on whole school priorities.

The breakdown of spending was as follows:

61%	Hiring specialist PE teachers or qualified sports coaches.
19%	Sports Stars.
16%	Transport to increase participation opportunities for pupils in sports festivals and competitions.
4%	Increasing knowledge of healthy meals and lifestyles.

Impact

As a result of the above

- 100% of pupils in ks1 and 2 accessed 2hours of quality PE per week from specialist teachers or PE co-ordinator.
- 100% of pupils received specialist PE delivery as part of the curriculum.
- KS1 and KS2 had the opportunity to attend after school sporting clubs free of charge. 30% of pupils took up on this opportunity, a 4% increase from last year.

- Competitive sporting opportunities doubled for KS2 pupils. 56% of pupils in KS2 attended a sporting event.
- Hosted own football tournament on ABEC grounds with 3 other local schools including our federated primary school.
- 100% of pupils in ks1 and 2 had classroom sessions based around healthy eating and lifestyles free of charge, developing further knowledge of healthy choices, especially healthy lunchbox alternatives.

Next steps

Our experience this year informs us that the focus for PE and school sport will include:

- Continue to invest in CPD for staff to maintain and improve the quality of teaching and learning in PE, encouraging staff to identify their own needs and areas for development.
- Invest in sporting opportunities that will help development of targeted pupils in particular those pupils who are least active through implementation of a change4life club.
- Training sports leaders from ks2 pupils on how to set up and explain activities to other pupils within school.
- Encouraging sports leaders to take responsibility for break time/lunchtime clubs to target specific children in different key stages.
- Increase the opportunities for children to compete in inter school competitions and festivals, developing sportsmanship and competitiveness.
- Update PE equipment within school so children have access to better quality equipment for a wider range of sporting activities.
- Continue to develop the football team through after school clubs and increase number of tournaments and competitions they attend.
